the Diplomacy (Allan Colman's game) supplement  
of the Sunday Western Star-Post-Free Press,  
Vol 8, No 2, February 3, 1980

DIPPY is published by the Great Western Publishing Co. & Whalshono Corset Works, a.k.a. Jim Benos, 417 S. State St., Hinsdale, Ill. 60521. Game fee is \$5 plus a subscription to this thing at the rate of 5 issues per dollar.

DICK MARTIN (26 Orchard Way N., Rockville, Md. 20854) is the proprietor of something called RETALIATION. This is a DIPLOMACY publication that looks a whole lot like DIPPY, except that it's completely devoted to the game. Dick does not publish anything like our white pages. Dick is looking for players apparently. If you're looking for a game, you might drop him a line...

PICARD KOVALCIX, in a recent edition of his TETRA SPID describes DIPPY as a "company publication." Hardly. If the company I work for were behind this effort, it would be on slick paper. DIPPY is just the supplement that comes out every three weeks along with the Western Star-Post-Free Press, which is a "newspaper," serving a community defined by its readership. We have real news occasionally, and real views too. But mostly satire, and although much of the stuff in the white pages may seem like an inside joke to you, you're more than welcome to come inside and share jokes about yourself! Just ask Tom Eng.

OZOG IS REAL! On 1/13/80, 10 bloodthirsty DIPLOMACY players gathered to battle it out over 2 more or less simultaneous games at the home of Eric Ozog. The first player to arrive introduced himself as Bernie Oaklyn, but soon confessed to being only "Shrove," when Ozog began to turn white, clutch his heart and stagger backward.

The first game to begin got off to an interesting start with a 3 way (A-T-G) attack on Russia and a 2-way (F-E) attack on Germany. Russia and Germany were not surprisingly the first 2 out. Following several vicious stabs, the Turk took control of the east, with England and France in charge of the west, forcing a draw.

The second game followed a somewhat different course but surprisingly ended with a similar draw, T-E-F.

During the entire session, Eric Ozog gave every impression of being real and convinced over a skeptical Jack Frost of his existence.

The next F-T-F DIPLOMACY games will be held at the slumdwelling of Dwayne Shrove 2/10/80 (Sunday) at 5850 W Race, Chicago, Ill (921-6515) The blood letting begins at 11 am or so with probably 2 simultaneous games this time.

PARIS--What's left of Italy: Bernie, perhaps I would have been a little more interested in listening to you if you had negotiated as an equal. Your negotiations were uncerle. You can't get me to listen if you take a patronizing tone and offer me deals that benefit you exclusively.

Next time try offering a deal that benefits BOTH you and your potential ally and give some indication that you mean it.

AD IATIC SEA--On its last time around, the Italian government prepares to scuttle its warship on the sandbars of the Adriatic Sea. Reviewing his memoirs, the Italian Leader spoke in a soft, pleading tone, saying, "We issued a challenge and it was accepted. Yet, we find the acceptor is not able to fulfill the obligation of that challenge. We hereby release him from his pledge." Noting also that honor had fallen in the world, the Italian Ruler viewed with dismay the fall of beloved Greece to a one time friend. Trying to think of ways to "get back at" the backstabber, a note was issued which read, "assigned that bastard Austria in the next game!"

TURKEY TO GM--That I believe Bernie was alluding to last issue was probably frustration at a tendency for other players to attack him in other games, primarily because he is Bernie and because anyone who might work with him would do well to merely survive because of that. I have noticed this tendency in a number of games and feel that these are good examples of the hypocrisy of those who might otherwise argue for forging alliances in each game independently of other games. If my supposition is correct, I don't blame him for being frustrated and to not feel that this merits his categorization as a "whiny brat."

I do not take the position that how a person has shown himself to be elsewhere should be ignored, and so would not be a hypocrite if I automatically attacked someone, but I would not be among those who joined the anti-Bernie slaughter for any reason outside the game. I have not found him to be a bad ally, rather better than most, even though this game is lost.

Now, let us see how many attack me elsewhere because of this statement!!!

FREEDONIA TO FRANCE--Please consider it Robert. I do not know what  
you are thinking, but hope that Franco may be willing to re-open ne-  
gotiations with THIS, particular, eastern nation.

FREEDONIA TO ENGLAND--Is bad there was never any "Washington  
Treaty" to keep you safe and snug across the channel!

LONDON--Debate on recognition of Freedomia was initiated today in  
Parliament. It was questioned on the floor if along with the name change  
the flag will be redesigned also. If that were the case the government  
would be put to great expense changing the crescent moon on the country's  
outhouses. Strong opposition was raised on this point, and a settlement is  
not expected until next session.

It was also decided to postpone debate on Lord Wellington's requests  
(some say demands) for more fleets in the Mediterranean. It is reported  
that the King opposes such a move but is remaining silent on the matter

HAY)--Acknowledging today that the Italian allies have fought a courageous battle against the aggressor, the Polo Captain extended an invitation to the Italian leaders to join him on his yacht for war discussions and polo (bring your own horse). Later when questioned about recognition of Freedonia Lord Wellington replied "I don't even recognize Turkey."

CONSTANTINOPLE-LONDON--Mark, I realize you want to keep this game just that: ~~XXXXX~~ Unfortunately, your remarks were neither timely nor necessary.

As to Ron Garski's remarks in my defence, he had the right to make them not as an ally but more as a going friend who was concerned over the nature of your statements. I allowed him to make his comments and feel even now that they were appropriate. I do not need an apology since the problem appears to have been dealt with quite well and I certainly hope that your future remarks will be a little more tactful.

Finally, about my habitually bungling things, I don't believe that failing to do things the way you want means that I've screwed up. Everything I do is ALWAYS with Turkey's National Interest in mind first: the interest of my allies second. You can take it from there. Also about Italy's rolling across Austria and maybe no, time will tell but I will stand by my decisions to the end.

I only regret that you may have tarnished this, and to a point where total enjoyment from it may now be impossible--but let's wait and see.

LONDON TO MOSCOW--I guess I asked for it.

## CONTROVERSY OVER MAYOR BYRNE'S LATEST IDEA

By Berlin Did-

Chicago Mayor  
Jane Byrne stunned  
the suburban cir-  
cumstances surround-  
ing her city last  
Friday when she re-  
vealed that she was  
considering the im-  
position of a "pri-  
vilege" tax on sub-  
urbanites who work  
in the city.

Most of the im-  
mediate reaction  
among STAR n tables  
was negative.

Jim Gillespie  
was caught sneaking  
through several  
downtown Chicago  
streets and alleys  
smirking that he  
was using city  
pathways without  
paying for them.  
He threatened to  
erect tollgates in  
all suburban com-  
munities, stopping  
all city residents  
in each one for a  
tax as they passed  
through.

Jim Jones said  
he wouldn't mind  
paying a tax if he  
got a vote. "After  
all," said Jones,  
"didn't we fight a  
Revolutionary War  
over taxation with-  
out representation?"  
Jones said he was  
sure the city would  
reject giving the  
vote to suburban-  
ites. "I don't think

FIVE YEARS AGO IN THE STAR,  
the big controversy was over  
"The Great Perri Alarm Clock  
Puzzle." Yes, it seems some-  
body was leaving a certain  
message on Toney's telephone  
answering system...the wake-  
up call of a Burs Bunny  
alarm clock. Perri was re-  
ported having no idea of  
who the guilty party might  
be...but was nevertheless  
ready to commit mayhem upon  
his-or-her body...

The newsroom's Don Schuble  
had been assigned to ask man  
on the street questions. The  
question was something to the  
effect of whether the adverse  
state of the economy had had  
any affect on the respondent's  
vacation plans. One squeamish  
respondent told big Don that  
he never travelled much.

Another turned out to be John  
Callaway, the News Director  
at Channel 11, who said he'd  
be working, producing a TV  
news show that was broadcast  
at 7 and 10 each evening...

By Jim Lord, staff

It may seem like  
much liner, but  
these huge jumbo jet  
liners like the 747  
or the DC-10 or the  
L10-11 have been  
with us only for 10  
years. And it may  
not be too much lin-  
er before they are  
dwarfed by newer,  
gigantic airships  
that are a throwback  
to the Zeppelins of  
the 1920s and 30s.

Dr Kurt Stohling  
of the National Oceanic  
and Atmospheric Ad-  
ministration says he  
thinks the need to  
conserve energy will  
lead to a revival of  
the dirigible. Dr  
Stohling says airships  
would use only 1/6th  
as much energy as  
would heavier-than-  
air craft in the move-  
ment of an equal  
amount of cargo or  
passengers.

Ofcourse, there is  
a drawback: speed.  
LTA (lighter-than-air)  
craft might only  
achieve a top speed  
of 120 mph while jets  
can fly along at 600  
mph.

Nevertheless, if  
you had the time, and  
since the cost would  
be less, might not  
you try a dirigible  
over a jet? And  
consider how much  
cargo does NOT need  
immediate delivery.

Dirigibles now  
are safer than they  
were in the days of  
the Hindenburg dis-  
aster. Their lift  
comes from helium,

#### McARDLE'S SET FORM

If I were TBA Commissioner, I'd adjudicate disputes fairly, circulate members' proposals for votes and include my comments on the proposals, and refrain from making proposals of my own. I don't want a team. I personally would prefer less difference between the best card in the league and the worst, less dependence upon the retirement rule to determine which teams are better than others, and a simplification of the draft system. My personal preferences will not be imposed on the league. And that's the truth, so help me Curley McPeak.

#### SEVERAL NOTABLES INVOLVED IN TRAVELLING PLANS

By Ralph Guano, STAR Travel Ed  
A big welcome back to Tripp Fröhlichstein, who just returned with friend Holly from nine days in beautiful Aruba. Tripp visited the sunny isle to remind him of what St Louis is like during the summer. He brought back two things with him: a nice suntan, and a good case of Montezuma's Revenge that led him to abandon table recently during a friendly get-together at Stein's of Lyons...

Ron Gorski, meanwhile, that lucky devil, gets to spend a whole week in Detroit! Yes, Paul Harvey, or is it Harvey Paul?, is vacationing, so Mort Crim of Channel 2 fame gets to sit-in on the ABC radio network. Bert, however, now resides in the Motor City so the Gork has to produce the program from there. Enjoy, Ron, enjoy.

When Ron returns, he and the missus as well as the Rich Kings will be enukting Fröhlichstein and expect that they're going to Jamaica, as long as they avoid the riff-raff and stay away from what passes as hot dogs in the island.

Andi Wiley & Jia Tones, meanwhile, are making tentative plans to spend a few days in San Francisco come April. Andi will have to go there on ABA business, so this seems a good opportunity for Tom H and Charlene Eng to make good on their promise to show Wiley-Tones the town. Do they have any Bohemian restaurants in SF, Tom?

AIRSHIP (continued from page 1)  
not hydrogen, and the synthetic materials of today can provide a much tougher outer skin than the fabrics available at the turn of the century and later.

It may take some time to convince the public to use dirigibles again, especially in light of the movie HINDENBURG. But consider this: only 35 people were killed when that Zeppelin exploded and burned. 62 were injured. When a DC10 jetliner crashed at O'Hare last May, the death toll was 273.

the Chicago machine would like the idea of giving the vote to all these suburban Republicans. It might mean a real Democracy for Chicago."

John McArdle, on the other hand, though admitting little knowledge about how Chicago is run, was more compassionate. "I think we in the suburbs should help pick up the tab for the poor in the inner city," said John. "Artificial boundaries shouldn't stand in the way."

When informed that the state and federal governments are responsible for welfare payments and that Chicago city garbage trucks operate with four-man crews, McArdle conceded, without changing his general philosophical stance, that city officials certainly have an act that is in need of cleaning up.

It remains to be seen whether "Calamity" Jane will go through with her tax proposal, whether it will be found constitutional, and whether the suburbs will respond in kind. Best bets are, however, that it will be dropped...quietly.

### TBA ROUNDUP:

WINDS SWEPT SERIES WITH PEORIA; DROP BIG ONE TO BB By Ralston Arena, Sportswriter Plenipotentiary to the STAR

The TBA Augusta Winds handed the Peoria Rockets a 103-95 loss at "The Plantation" Saturday. This, their best contest of the season, was Augusta's 3rd win in as many meets.

Temper flared repeatedly as the Rockets, never far behind, stalked the Winds. Peoria's Tyrone Walker and Augusta's Kevin Storey were ejected for fighting 2 minutes into the 4th quarter (Storey reportedly took offense at "Sky" Walker's rebounding technique and loudly attributed it to an exotic aspect of Walker's ancestry, prompting Walker to push Storey, who lost his balance, fell, and came up swinging). 8 minutes later Augusta's Garnette Baxter was ejected when he drew his 2nd technical foul. He was replaced by Corneal McAffee, who had himself been assessed a tech earlier.

The Rockets were not guiltless, however. Their entire bench was assessed a T during the game's early going.

The following night the Winds faced the TBA Champion Bellingbrook Blue Jays. Despite an early lead, the Winds shooting machine went cold. Augusta managed to pull to within 3 points before slacking off as the Jays crested. (TTG)
